Art Unit: 2815

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 14 is rejected under 35 U.S.C. 103(a) as being unpatentable over applicant's prior art admissions in view of Hodge and Greer.

Applicant admits that all the structure claimed is known except the substance of lower refractive index. See prior art figures 1 and 2. The "substance" is merely a coupling agent which was well known in the art for enhancing light coupling. See Hodge and Greer who show that such coupling agents were well known and obvious. Claim 14 is an obvious structure.

Claims 4-10, 13, 16, and 17 are allowable.
